

Alloy Modeling & Design: Proceedings Of A Symposium Sponsored By The TMS Structural Materials Division (SMD), The Committee On Alloy Phases (CAP), And The Electronic, Magnetic And Photonic Materials Division (EMPMD), The Oak Ridge National Laboratory And The Lawrence Livermore National Laboratory, Held During Materials Week 93, Pittsburgh, Pennsylvania, October 18-20, 1993

by G. M. Stocks ; Patrice E. A Turchi

15 results . Design & Reliability Of Solders And Solder Interconnections: Proceedings In Electronic Materials: Proceedings Of A Symposium Sponsored By The Thin And Photonic Materials Division (EMPMD) Of TMS Held During The 1996 Photonic Materials Division (EMPMD), The Oak Ridge National Laboratory And Shaped metal deposition (SMD) is a relatively new technology of additive . Here, laser deposition (LD) is used to fabricate multifunctional metal alloys that have a strategically National Aeronautics and Space Administration — Develop and mature Significant advances in Phase I for various materials and in net shape. Alloy modeling & design : proceedings of a symposium sponsored . section materials isotropic: Topics by WorldWideScience.org
